ABOUT US

We are proud that we have been able to operate in the U PVC Extrusion Company for 25 years. VIN- TEK PVC-New extrusion tools and maintenance of in-service tools support, New tools, maintenance, repair, improvement for our value regular and new customers. Our goal is the knowledge and strong business. We value advanced technology and quality every production level. Provides customer satisfaction on sale and after sale on instant husbandry We accept your responsibility to get better solutions for partners in the extrusion area.

TEZGAHLAR

Yüksek kapasite sıfır tolerans ve en hızlı üretim için son teknoloji tezgah ve ekipman.

MACHINERY

We use the latest technology bench and equipment.
To get high capacity and zero tolerance to become fastest production.

Yüksek teknoloji cnc dalma erezyon ve cnc talaşlı imalat makinaları.

High technology cnc erosion and every kind of cnc machines.

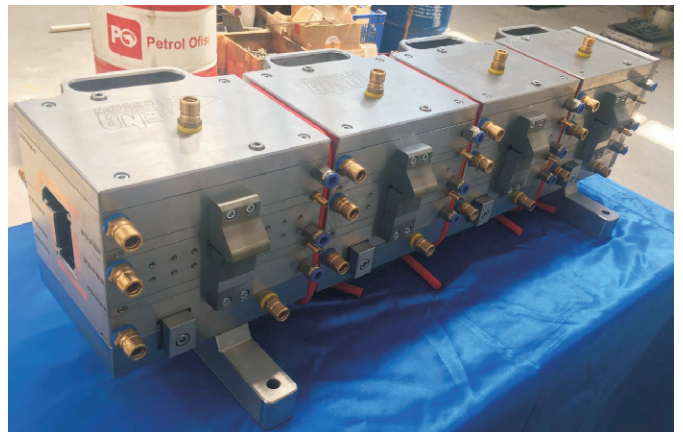

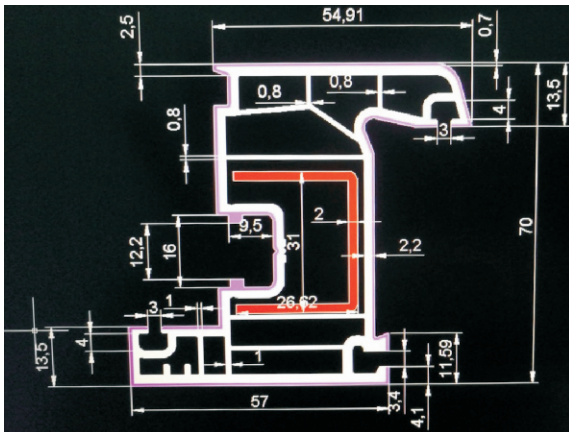

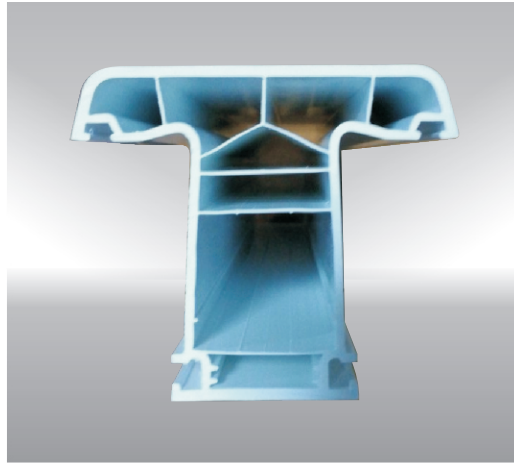

ANA KALIPLAR İÇİN SICAK KAFA VE KALİBRE SİSTEMLERİ

Alman DIN .2316

Upvc Heating Mould and calibrating systems for main molds

German DIN .2316

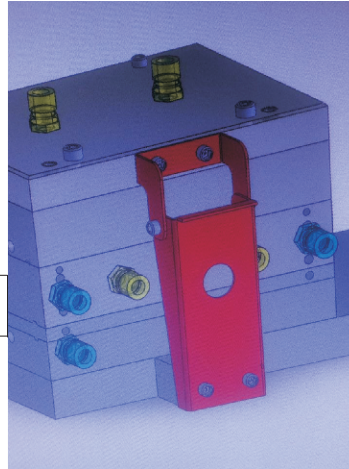

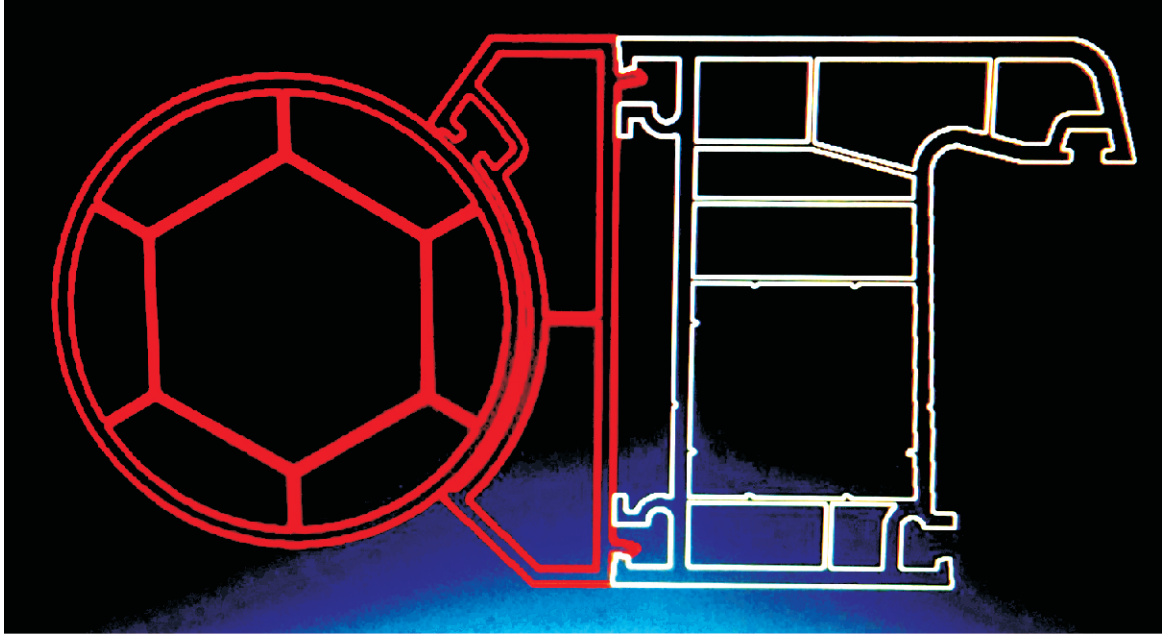

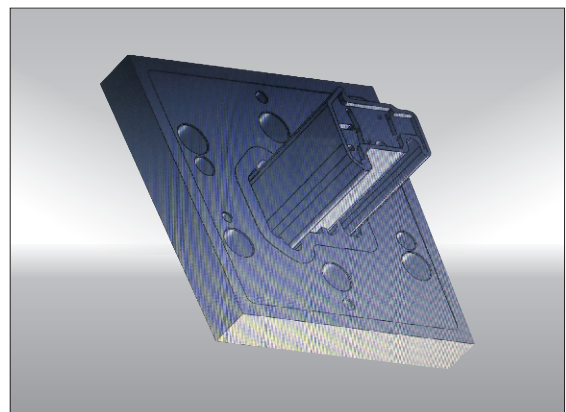

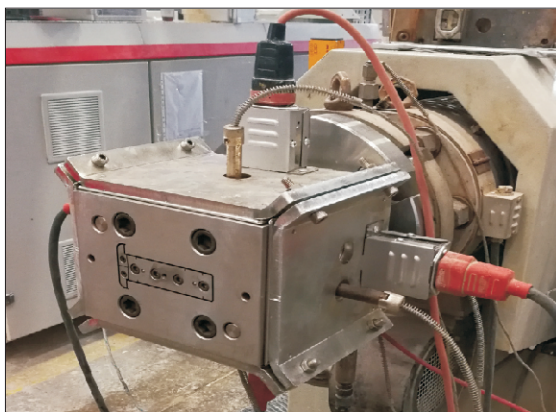

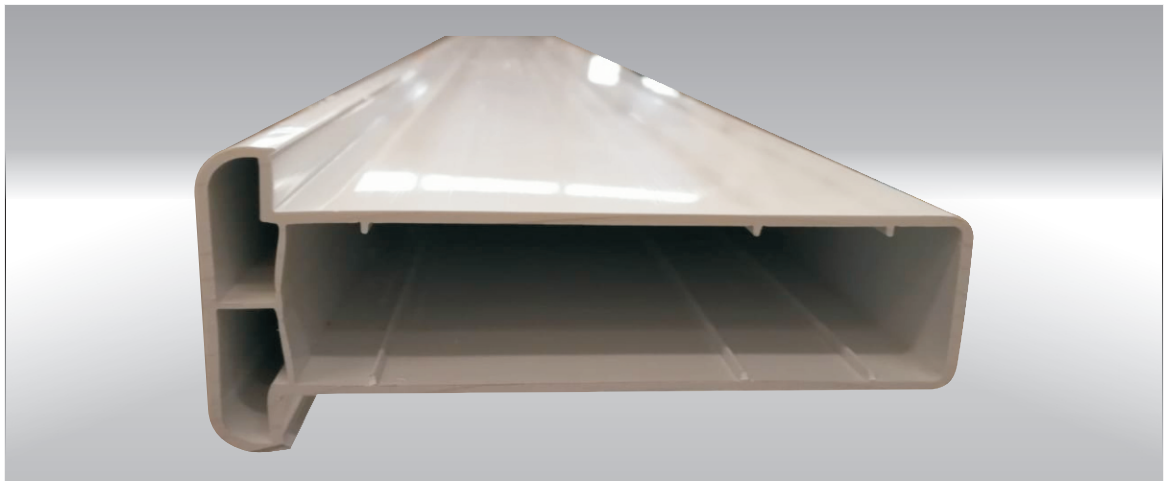

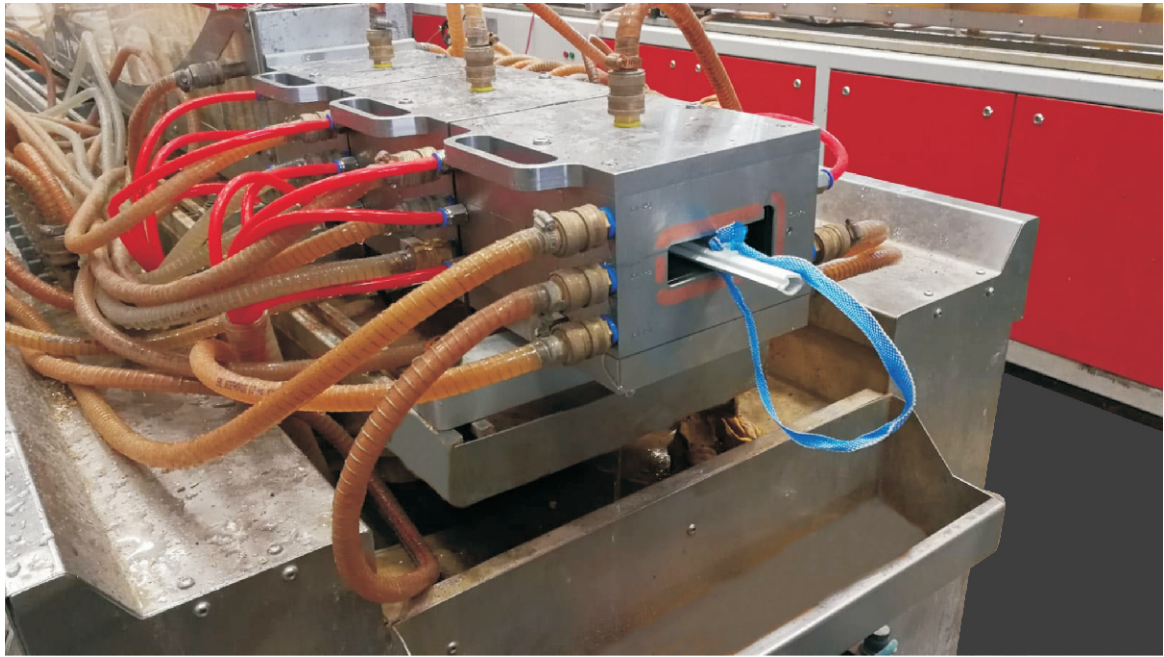

TESLİMAT

Müşterinin fabrika koşullarına göre kalıp teslimatları özveriyle yapılmaktadır.

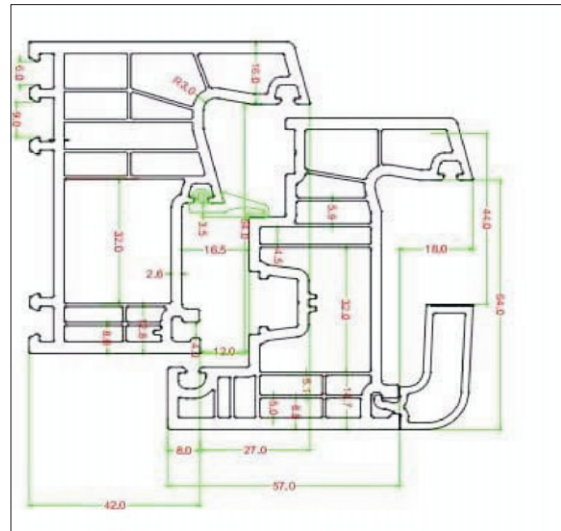

DELİVERY

Mold deliveries are made with the dedication of the customer according to the factory conditions.

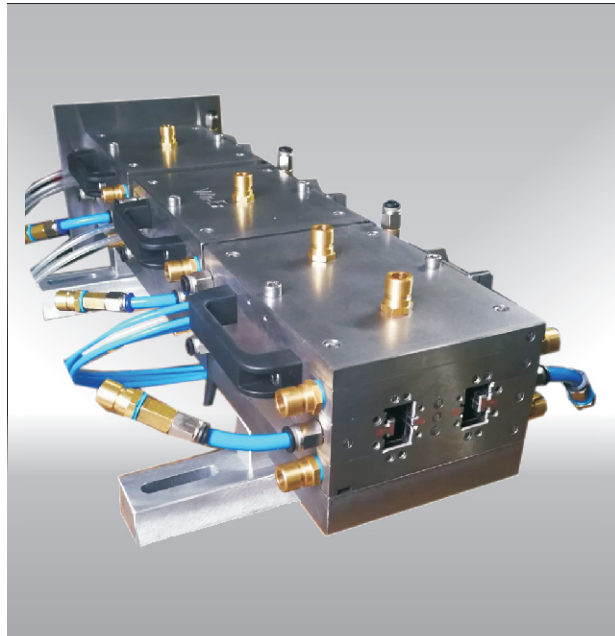

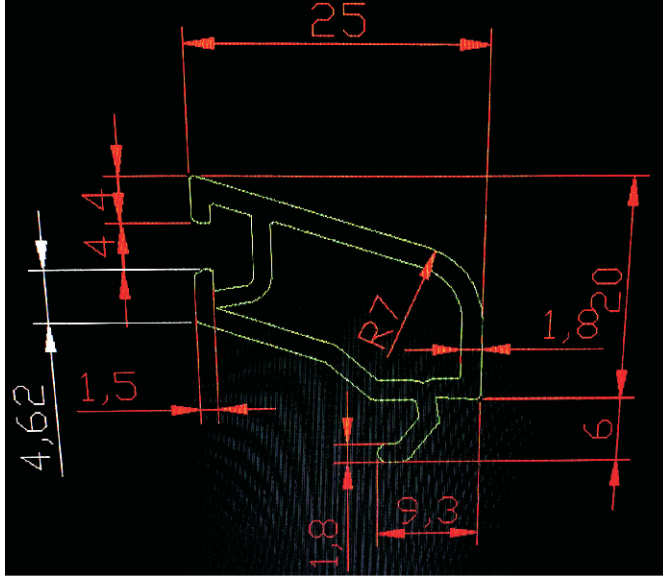

Main profile molds and cooling tanks.

Yardımcı profiller için sıcak kafa ve kalibre sistemleri.

Heating Mould and calibrating systems for auxiliary profiles.

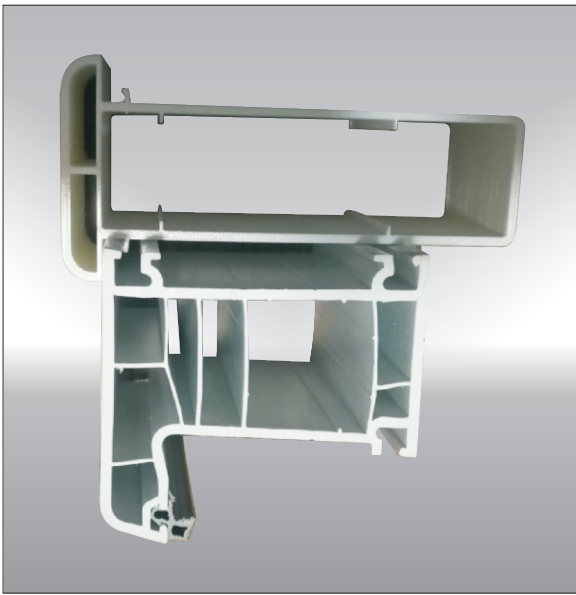

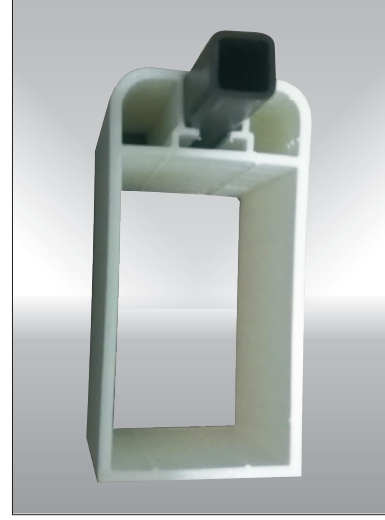

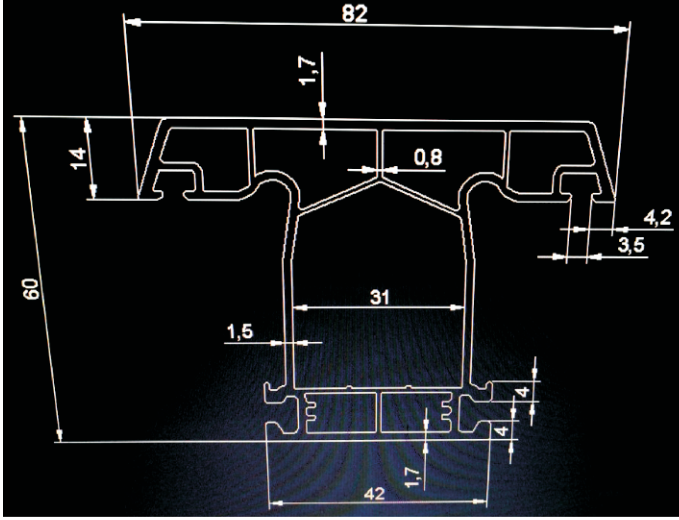

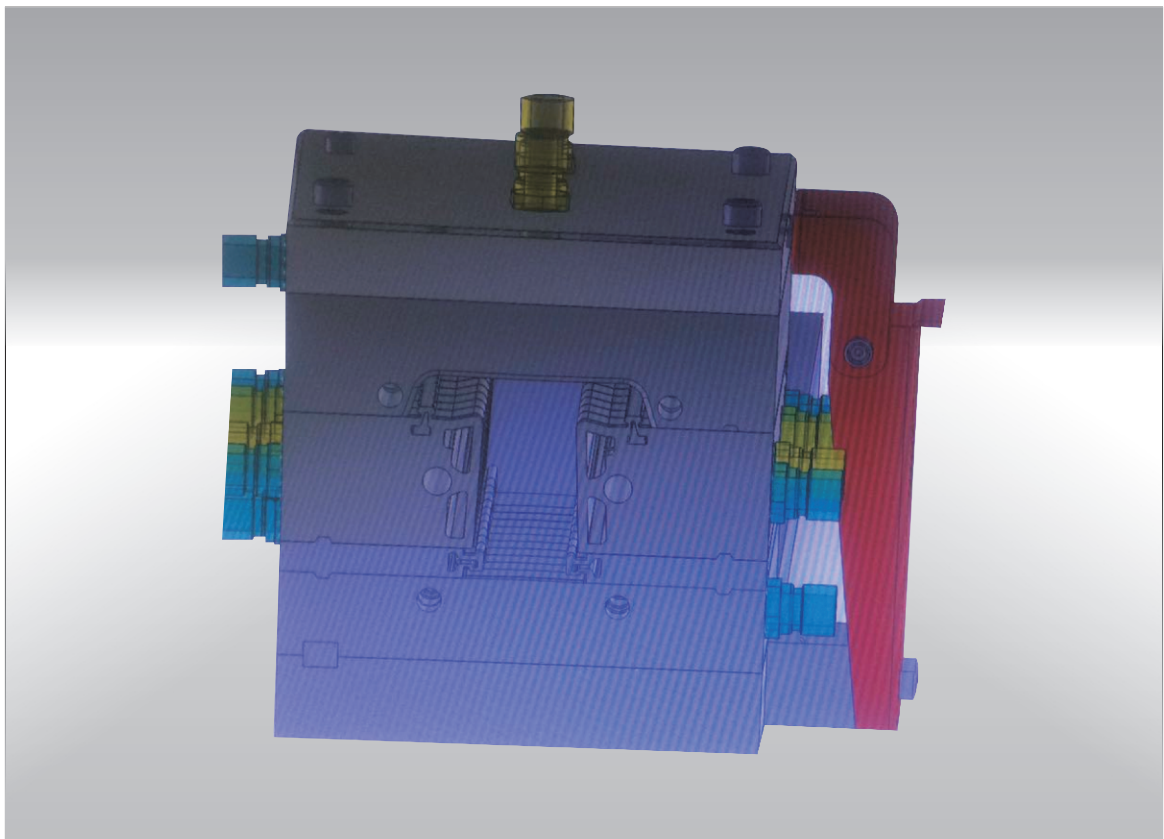

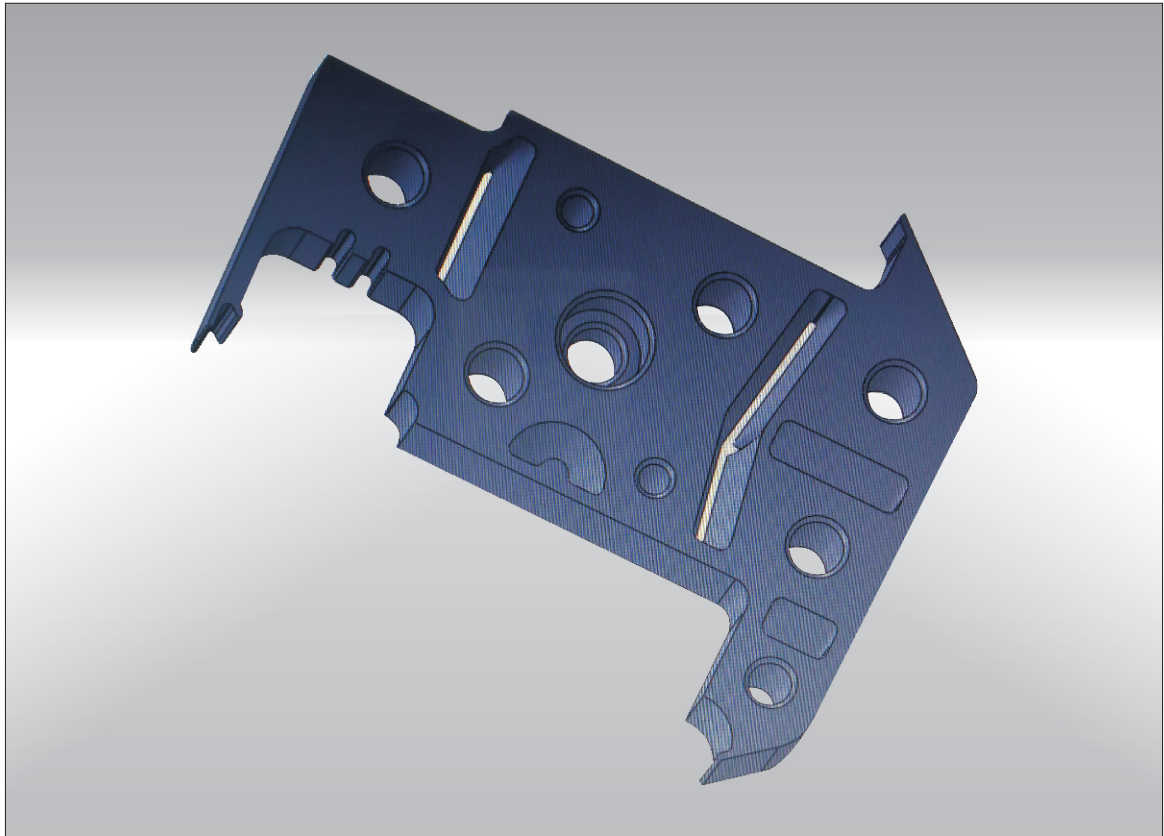

TASARIM ve ARGE DEPARTMANI

Müşteriden gelen çizimler doğrultusunda hassas bir çalışma göstererek kalıp tasarımını ortaya çıkartmaktadır.

DESIGN AND R & D DEPARTMENT

Drawings from customer demonstrating for a precise work. That better resolution in line reveals mold design.
